Landscape Foreman

Do you want to work for an employer who rewards skill, dedication and hard work? Then we are looking for you. We are a fast growing and fun company offering competitive wages, health care benefits, RSP/TFSA Contributions and profit sharing to the right candidates. In 2015 and 2016 we paid out over \$53,000 in bonuses and sent 2 foremen on a paid golf trip to Arizona. We are also willing to offer training and further education. If you invest in us – we invest in you!

Although this is a seasonal position, we guarantee work from March 1st to November 30th with the possibility of an extended season dependent on weather.

Summary of Position:

The Landscape Foreman is responsible for the successful execution of all Landscape projects from start to finish including management of all staff, job scheduling and product acquisition. They are also responsible for ensuring site and equipment safety procedures are being followed at all times. We believe a safe workplace is a successful workplace.

Although mechanical abilities are not a requirement – knowledge of proper equipment maintenance procedures are a must. The foreman is responsible for working with our mechanic to ensure that equipment is properly maintained and cleaned on a regular basis.

Required Qualifications and Experience Include:

- Valid B.C. drivers license and clean abstract.
- Minimum 5 years experience in the landscaping industry.
- Minimum 2 years experience in a management or supervisor role.
- Minimum 2 years experience operating equipment such as a Bobcat and Excavator.
- Excellent communication and leadership skills.
- Highly organized.
- Excellent customer service skills.
